

## Environmental Policy

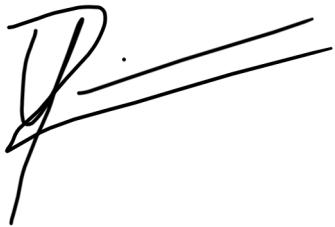

Yellow Zebras Consulting Ltd (YZC) is a specialist consultancy providing advisory and project management services in the offshore wind sector. We support clients throughout project development and construction, delivering expertise that ensures safe and efficient projects with minimal negative impact on the environment.

YZC is committed to minimising the impact of our activities and projects on the environment and even improve the environment where reasonably practicable. This Policy sets out our commitments:

- **Compliance:** We will comply with all applicable environmental legislation, guidance, best practices, and other requirements relating to the activities we do.
- **Culture:** Our aim is to ensure environmental protection and minimising negative environmental impact of the projects we work on is part our company culture.
- **Advisory:** We promote positive environmental impact and minimise negative environmental impact within our work through offering clients practical solutions which minimise resource consumption, waste and noise generation, pollution risk and increasing positive environmental impact
- **Waste:** We are committed to minimise waste by providing a paperless delivery of our services, as reasonably practicable. We actively promote recycling both internally and amongst our customers and suppliers.
- **Energy consumption:** We are committed to minimise energy consumption by minimising unnecessary travel and promoting the use of public transportation where this is a viable alternative. To this end we:
  - Deliver our services remotely to clients where practicable. We actively discuss minimisation of travel requirements with our customers and suppliers.

- Offer staff remote working to avoid commuting and consider local employment opportunities where physical presence at our client's premises is required.

This policy will be reviewed annually to ensure its continued relevance and effectiveness.
